#### ***Information Disclosure Statement***

2. This office acknowledges receipt of the following items from the Applicant:  
Information Disclosure Statement (IDS) filed on 08/17/2005.
3. Information disclosed and list on PTO 1449 was considered.

#### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

Claims 1-7, 9-12, 14-22, include allowable subject matter since the prior art made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. Mobley (U.S. Patent No. 6,501,698), and others, does not teach the claimed invention having an isolator control logic to coordinate the operation of the first set of subarray isolators to allow data in a row of memory cells within the first subarray to be copied to and latched by the first row of sense amplifiers, to coordinate the operation of the first set of common isolators to allow data latched by the first row of sense amplifiers to be transmitted to the plurality of global I/O lines, and to coordinate the operation of the first set of subarray isolators to prevent the loss of data latched by the first row of sense amplifiers by a precharge operation carried out to precharge the first plurality of bit lines.
